🧠 Skills

Python	● ● ● ● ● ●
GO	● ● ● ● ● ●
JavaScript for templates	● ● ● ● ● ●
REST API development	
PostgreSQL management	
Microservices architecture	
MongoDB integration	
Redis caching	
RabbitMQ messaging	
Kafka streaming	
Docker containerization	
Django expertise	
Flask expertise	
Async programming	
OAuth2 implementation	
ORM proficiency	
Data processing with GO	

📄 Summary

Senior Python Backend Developer with 6+ years of experience in fintech, crypto, and high-load systems. Strong focus on scalable backend architectures, REST APIs, microservices, and distributed systems. Enjoy building reliable and maintainable production systems.

🧩 Areas of expertise

- Backend Development, Fintech, Crypto, Payments, P2P,
- C2CHighload Systems, Distributed Systems,
- MicroservicesREST APIs, Database Design, System Integration

👛 Professional Experience

Senior backend developer

AltDevLab

07/2025 – Present | Belgrade, Serbia

- Fintech & crypto backend services
- REST APIs, microservices architecture
- Python, GO, JavaScript
- PostgreSQL, MongoDB, Redis, RabbitMQ, Kafka, Docker

Backend developer

Start.ru

03/2022 – 07/2025 | Moscow, Russia -> Yerevan, Armenia

- Media backend systems
- Anti-piracy detection service
- Licensing platform
- Python, JavaScript
- Flask, Django, PostgreSQL, Redis, Docker

Software engineer

Bank Hlynov

05/2021 – 04/2022 | Kirov, Russia

- Online banking services
- Legacy refactoring & performance optimization
- Microservices, testing (75% coverage)
- PostgreSQL, Python

🎓 Education

Bachelor

Moscow Aviation Institute

2018 – 2023 | Moscow, Russia

Computer Science and Engineering

🌐 Languages

- Russian
- English
