

Danylo Chernikov

iOS Software Engineer

📍 Montenegro, Budva ✉ chernikovdaniil@yahoo.com ☎ +38268616527 🔗 [Linkedin](#)

SUMMARY

iOS Software Engineer with 7 years of commercial experience developing iPhone and iPad applications. Working with Swift, UIKit, SwiftUI, Objective-C, StoreKit, and REST APIs. Experienced with MVVM, MVVM+C, Clean Architecture, payments, analytics, and legacy code modernization.

TECH SKILLS

Swift	iOS UIKit	SwiftUI	Objective-C	Async/Await
Alamofire	Core Data	StoreKit/Apple Subscriptions	Combine	XCTest
Test Driven Development (TDD)	Modular Architecture	MVVM/MVVM+C	Deep Links / Universal Links	Firebase Analytics
Mixpanel				

LANGUAGES

English (B2), Ukrainian (Native), Russian (Native)

EDUCATION

Central Ukrainian National Technical University	Bachelor's
Computer Science	Kropyvnytskyi, Ukraine • Sep, 2016 - Jun, 2020

KEY ACHIEVEMENTS

- Resolved a critical session lifecycle issue causing premature user logouts, implementing a robust authentication timeout fix for 30,000+ healthcare professionals across 200+ clinics.
- Migrated the subscription system from web-based Stripe payments to Apple StoreKit, bringing the app into full App Store compliance, improving purchase transparency, and driving higher subscriber adoption.
- Modernized the networking layer by migrating from RestKit to Alamofire using TDD practices, reducing monthly crashes by 90% (500+ to <40) and increasing average session duration from 12–15 to 28+ minutes.
- Refactored modules within a large-scale iOS application comprising 70+ dynamic frameworks, improving maintainability and adapting iPhone-oriented UI layouts for iPad devices.

EXPERIENCE

<u>Onix-Systems</u>	Remote
iOS Software Engineer / Mentor	2019 - present
• Contributed throughout the full product development lifecycle, from estimation and technical discussions to implementation, release, and ongoing support.	
• Mentored junior and mid-level developers, providing guidance and collaborating with them throughout project lifecycles.	

PROJECTS

Social Communication Platform | Voice, Video & Real-Time Interactions

Nov. 2025 - Jun 2026

Technologies

Swift, Objective-C, UIKit, Modular iOS Architecture, Dynamic Frameworks, Test-Driven Development (TDD), AI-Assisted Software Development (OpenAI Codex, Claude Sonnet), BrowserStack

- Features
- Refactored and migrated modules within a large-scale iOS application consisting of 70+ dynamic frameworks, improving maintainability and supporting ongoing modernization efforts.
 - Adapted a social communication application for iPad by extending existing iPhone-oriented UI layouts and workflows to provide a consistent tablet experience.

Healthcare Clinical Operations Platform

Jul. 2025 - Nov. 2025

Technologies

Swift, UIKit, Objective-C, Alamofire

- Features
- Developed offline mode infrastructure to support application usage during periods of limited or unavailable network connectivity.
 - Implemented navigation state persistence, enabling users to resume work from their previously opened screens and workflows across application restarts

Misterbnb | Travel & Hospitality Marketplace

Aug. 2023 - Jul. 2025

Technologies

Swift, Objective-C, UIKit, Alamofire, RestKit, Async/Await, Analytics Services (Firebase Analytics, Matomo, MixPanel), StoreKit, SwiftUI, XCTests, Quick

- Features
- Implemented Deep Links and Universal Links for content navigation, referral programs, payment flows, and marketing campaigns.
 - Enhanced analytics instrumentation and expanded the user tracking system using Firebase Analytics, Matomo, and Mixpanel to accurately monitor user engagement, average session duration, and identify UI/UX friction points.

MyHaas | Industrial IoT & Equipment Management

Jan. 2021 - Oct 2023

Technologies

Swift, SwiftUI, Objective-C, Alamofire (XML + SOAP), Paymetric, Core Bluetooth, PDF, Core Data

- Features
- Contributed to the design and implementation of user-facing workflows for machine management, purchasing, and operational tasks within the platform.
 - Contributed to the integration of the Paymetric payment platform, supporting secure payment workflows and transactions across major payment providers, including Visa, Mastercard, and American Express.
