

Alexey Kramskoi

Go, Python | Flask, gin, scikit-learn

Location

Residence: Serbia, Belgrade

Work availability: Open to remote work

Experience

Experience 7 months

Expected salary: from 500 €

GitHub: <https://github.com/alexcfv>

Professional Skills

Golang • Python • Jupyter Notebook • Pandas • Flask • Classical ML(pre-deep) • Data Analysis • PostgreSQL • SQL • Git

Professional Communities

July 2022 —
Present

GitHub

@alexcfv: 353 contributions in 5 repositories involving:

Golang • Jupyter Notebook • Python

Work Experience

October 2024 —
April 2025
(7 months)

getic

ML Developer (Intern) • Data Analyst

Latvia, Liepaja

Responsibilities and Achievements

Labeled and aggregated datasets, identified key correlations between. Metrics. Developed a sales analytics service using Flask, pandas and NumPy, which significantly improved sales trend analysis and optimized product promotion strategies.

Applied Skills

Python, Pandas, NumPy, Matplotlib, Seaborn

Additional Education

March 2023 —

Udemy

September 2023

San-Francisco Bay Area, USA

Completed course

Machine Learning in Python: Machine Learning & Data Science

Enhanced skills

Python, Pandas, Scikit-learn, Seaborn, Matplotlib, Seaborn

About Me

Backend developer specialized in microservice architecture and Telegram bot development. Experienced in building analytical tools for data processing and visualization.

Tech Stack:

Languages: Go, Python

Technologies & Libraries: Flask, Go standard library, gin, SQL, PostgreSQL

Data Science: pandas, numpy, scikit-learn, seaborn, matplotlib

Achievements:

- Developed a sales analytics tool
- Winner “Digital Breakthrough. Season: Artificial Intelligence” (2023) Russian Nationwide hackathon; developed an automated trading bot for construction materials procurement.
- One of my libraries is listed in *awesome-go* (go-pcaplite – lib for parse network packets)

Main Development Experience:

- Integration of ML/analytics modules into production
 - Configuration of interaction between microservices and databases
-
